ACKNOWLEDGEMENT

Praise to Allah the Al-Mighty for showing me the passage and giving me the spirit to complete this study.

This study has materialized out of the invaluable advice, patience, encouragement and also assistance of many. To each and everyone, I extend my sincere gratitude.

Firstly, I would like to express my heartiest gratitude and sincere appreciation to my supervisor En. Rozlan bin Abd. Rahim, for his untiring effort and never ending assistance, patience, mentor-ship as a supervisor and calming influence which were helpful to me upon completing this study. Without his guidance, all this would not have come into reality.

My heartiest appreciation and gratitude to my mother (Embak bt. Jusoh), my beloved wife Zarina bt. Idris and my sons (Khairul Amri & Khairul Azli) and daughters (Mazrina Halawati, Mazrina Ruwaidiyah, Mazrina Majdurah, Mazrina Syuhairah and Mazrina Fatiehah). Thanks a million for your support, patience and understanding.

Last but not least, thank you to all the lecturers of B. Ed. TESL and my fellow pioneer course-mate of B. Ed. TESL (off campus), your support, encouragement and cooperation will never be forgotten.

ABSTRACT

The study focuses on the perceptual learning styles and preferences of Kolej Universiti Sains dan Teknologi Malaysia (KUSTEM) students in the learning of English as a second language. As we all know English has been taught in Malaysia from primary school till university level, yet most students cannot converse well in the language. One of the reason is the teacher does not imply the proper method and the preferred by the students.

Through this research, the focussed were on what are the styles preferred by the KUSTEM students and enhance them in the learning of English as a Second Language. Some students prefer kinesthetic and some were visual learners and tactile learners were the utmost. Besides that the students do not rigid to the styles they preferred.
