ACKNOWLEDGEMENT

Alhamdulillah, praise to Allah the Almighty. With His will and His bless, I am able to complete the 2017 Industrial Training session in SWCorp with ease. The training duration is eight weeks length which the duration is satisfactory as I am able to gain a lot of experienced in SWCorp within the training periods. My training started on 17th April 2016, on Tuesday and ended on 09th June 2017, on Friday.

I take this opportunity to express my profound gratitude and deep regards to Puan Nuraida Azmi, Encik Afiz Saupi and Puan Noor Adilah Md Arifin my industrial supervisor, for their exemplary guidance, monitoring and constant encouragement throughout the Industrial Training session. The blessing, help and guidance given by them, time to time shall carry me a long way in the journey of working condition on which I am will embark in the future. Moreover, without helping from them, I am surely come into deep problem in completing this report. I will utilize all the knowledge that given to me when facing the working world soon and during my studies.

I am also want to give credits to staff members of SWCorp, naming Mr. Kamalrodin, Mr.Hairul Yusri, Mr.Ahmadi, Mr Akmal, Mr Raja Mohd Helmi, Mr Sofpuan, Mr Sazarudin, Mr Che Isa, Mrs Noor Adilah, Mrs Farhana, Mrs Zarina, Mrs Siti Nur Azwa and Mrs Siti Zaleha for the valuable information provided by them in their respective fields. I am grateful for their cooperation during the period of my industrial training.

Besides, I would like to extend my gratitude too, to the organization, SWCorp for their kindness and their trust giving me the chance to undergo my industrial training here.

I also take this opportunity to express a deep sense of gratitude to Encik Shahrizal Samat, the director of facility department as for the full support in form valuable information and guidance, which helped me in completing this training successfully.

Lastly, I would like to express my deepest appreciation to my parents, Abdul Razak bin Abdul Latif and Rahaiyu binti Rabial Hashim and special mention my aunt Rosmawati binti Rabial Hashim that help me a lot during my Industrial Training, my whole family for supporting me all this time.

I also would like to thank my friends for their constant encouragement and big contribution in helping me for the past two months. During the past two months of time, their kindnesses have been very great and extremely mean a lot to me. They have sincerely lent their hands from time to time to help me, and without the enthusiasm and suggestion from them, I could find that it is quite hard to solve all the problems that I have faced during that time. From here, I have been realized about the true value of friendship, respect and help each other. Moreover, without them, I will not be able to submit this industrial training report on time.

Nur Syafiqah Aqilah binti Abdul Razak

ABSTRACT

The 2017 Industrial Training Session is compulsory for Diploma students of Civil Engineering course in Universiti Teknologi Mara (UITM). The training is conducted for 8 weeks in total for second year student. The trainees need to undergo at least 80 percent from the designated duration of industrial training period.

During this training session, I have been placed under SWCorp Company where the scope of work is to monitor the performance of the concessionaire involved in the provision of solid waste management and public cleansing services, to recommend policies and strategies of solid waste management and public cleansing services to National Solid Waste Management Department (JPSPN).

For week's division, I have been placed under Office the whole training session and only certain days for a week, went to the transfer station site followed by their staff. There are many technical works I have learned during this training ranging from inventory work, one stop centre (OSC), facilities and process in landfill, site and snowflake system, and incinerator machines. Then, I have been to Facility department to learn under three sections which is operation, section and contract & quantity surveying section.

From this, I have learnt a lot of new things within the training periods even though the scope of work is different from civil engineering. Moreover, I am not only could generates hard skills ability but also could improve my soft skill ability from activity such as office work and presentation.
