APRIL 2017

ABSTRACT

Industrial Training module (ECM 376) is a main component in the learning academic for Universiti Teknologi Mara (UiTM) Campus Pasir Gudang. Industrial training was first introduced to students is in year of 2014. Industrial training is one of the compulsory courses that needed to be carried out by students (semester 4 and above) in Diploma in Civil Engineering. Every student bounds to be involved in industrial training for 8 weeks (18th of April 2016 to 11th of June 2016) during the semester break in order for him or her to get his or her diploma certificate.

Other than that, Industrial Training was to increase the level of graduates which is able to work, industrial training program was introduced to strengthen the competencies required. Industrial Training courses give students learning opportunities in the world of work to receive practical experience in order to improve the reliability of the market.

It is also a program for student to learn, gain knowledge and understand about engineering problem in the real situation instead of learning in the classroom. Industrial training consists of an exchange of services for experience between the student and organization in a short term. Tendency for engineer to share their knowledge is higher due to produce a potential new engineer.

Generally, an interns have a supervisor who assigns specific tasks and evaluates overall intern works. A supervisor will be responsible to teach and guide an intern. The trainee also must follow all the rules and regulations of the organization as they have been accepted in their company.

ACKNOWLEDGEMENT

First of all, I would like to thank to The Mighty Allah S.W.T. for the precious opportunities to undergo this internship within the 8 weeks at Jabatan Kerja Raya (JKR) Jasin. Besides, I want to thank Allah S.W.T for giving me inspiration, patience, strength and time to successfully finish my internship. With Allah's will and mercy I have been to achieve all of this.

Secondly, I would like to thanks to Universiti Teknologi Mara (UiTM) for giving me opportunities to undergo this internship. I really appreciate this chance because it give me exposure as engineer in real life. Thirdly, I would like to thank to Jabatan Kerja Raya (JKR) Jasin especially Ir. Zainudin Bin Sulaiman, the District Engineer in JKR Jasin which is as the head engineer, for giving me a chance to do this internship in this organization. This organization have thought me many things especially in planning for project, solve problems and many more about engineering.

The most importantly, I would like to thank to my family especially to my parents that always give support to me for completing this internship. Without their support, I will not be able to complete this industrial training. Lastly, I also would like to thank to all my lecturer and friends especially student from EC110 (Diploma in Civil Engineering), UiTM Cawangan Johor, Kampus Pasir Gudang for helping me in completing this report.

TABLE OF CONTENT

Chapter 1 : Introduction

1.1	Introduction	9
1.2	Company Background	11
1.3	Organization Structure	13
1.4	Nature of Business	14
1.5	Products	15
1.6	Market Strength	17
1.7	Conclusion	18

CHAPTER 2 : TRAINING ATTENDED (WEEKLY SUMMARY BASED ON LOGBOOK)

2.1	Introduction	19
2.2	Exposure Level	20
2.3	Conclusion	32

CHAPTER 3 : TECHNICAL REPORT

3.1	Introduction	33
3.2	Problem Encountered and How To Overcome It	36
3.3	Experience Gained	37
3.4	Conclusion	38

CHAPTER 4 : CONCLUSION

4.1	Introduction	39
4.2	Lesson Learned and Knowledge Gained	40
4.3	Suitability of Organization	41
4.4	Limitations and Recommendations	42

REFERNCES	43
------------------	-----------

APPENDICES	48
