ORGANIZATION : AISAR ENGINEERS SDN. BHD.
INDUSTRY SUPERVISOR : ZULKHAIRI BIN RAZALI
VISITING LECTURER : SAIFUL BIN JUMALI
TRINING DURATION : 8 WEEKS (18.4.2017 – 11.6.2017)

ABSTRACT

The company that I worked during my internship training is Aisar Engineers Sdn. Bhd. No. 34-A, Jalan TKL 6, Taman Kota Laksamana, Seksyen 1, 75200. Melaka. The chain business of Aisar Engineers is to provide a service for the costumers for drafting and design the structure of construction. My training and internship program been divided into part and phase that had been arranged by the company like example drafting and designing. The purpose of the training is to expose ourselves to various aspects of industrial practices and ethics and also to appreciate the significance of theoretical knowledge gained in the university into the engineering practices. This industrial training program has also help strengthen my professional skills and interpersonal relationship in a professional setting. All these valuable experiences that I had gain from this program will definitely help me to improve myself and develop to become a much better and knowledgeable engineer in the future.

ACKNOWLEDGEMENT

In performing my internship, it is successful one I had to take the help and guideline of some respected person. First of all, I am grateful to Allah who gives me sound mind and sound health to accomplish my internship. The person in-charge of this subject, Sir Saiful bin Jumali for the valuable guidance and advice. He inspired me greatly to work, commit in this internship session. His willingness to give an advice and motivate us contributed tremendously to my internship session. I also would like to thank him for showing me some example and also technics in the organization that related to the topic discuss of our internship session. Besides, I would like to thank the authority of UiTM Pasir Gudang for providing us with a good environment and facilities to complete this course.

Besides, I would to appreciate my internship supervisor which Mr. Zulhairi bin Razali. He is the person that in-charge in order to evaluate my assessment and performance related in working industry. He had tough me a lot about how to work in a real life of working in consultant company. He had helps me to find the way of solving all the problems that I faced. He also helps me in order to make my flow of job during this internship flow very good and nicely.

As the most important, I also want to thanks to Aisar Engineers Sdn. Bhd. As giving me change and opportunity to work in this organization in order to complete my internship session within 8 weeks until it is been done completely.
