## ABSTRACT

I have been at Hospital Engineering Service, Hospital Universiti Sains Malaysia for 7 weeks and written this report for the advancement of knowledge in practical life. This report is basically from what I have written in logbook daily. I have divided the report in four chapters.

1. Chapter 1 is about the introduction, discuss about the history and background of the organization in organizational structure, nature of the business, product that they made, their market strength and the conclusion.
2. Chapter 2 discuss about my weekly summary based on logbook, the details of my work done during the training.
3. Chapter 3 contains the technical reports for what I have done there. Basically, this chapter is about building maintenance.
4. Chapter 4 is about conclusion of this report. I have stated lessons learned and knowledge gained on this chapter.

I believed that this report contains and cover all the aspects that are need for the faculty.

## ACKNOWLEDGEMENTS

I honor my humble respectful appreciation and gratitude towards my most graceful and love aspiring merciful Almighty Allah S.W.T for blessing me with all required knowledge, health and courage to successfully accomplish and render this practical training report.

I dedicated to acknowledge with a deep sense of gratitude and appreciations to my training supervisor IR Suwandie Bin Makhtar, Engineer of civil engineering from Hospital Universiti Sains Malaysia for giving me the idea on working out this practical training report. He was extremely helpful throughout the practical training period. The explanations, guidance and support he gave made it possible for me to complete this report successfully. Not forget that a lot of staff and workers provide guidance if I do not understand about this report. They were taught how to make a progress report in all aspect.

Also, I would like to express my appreciation to all lecturers and especially to my supervisor Sir Mohd Amran Bin Hasbullah from Centre of Studies for faculty civil engineering, UiTM Pasir Gudang (Johor) for all his valuable assistance and guidance in assisting me in my report writing. I also want to thanks to Mrs. Hartiney Mohd Zakey because she give me an idea at a time when the lack of ideas in a practical report writing topics this semester. I really appreciate her great contribution

Lastly but not least I dedicate with full responsibility my respectful appreciation, honor and gratitude to my most beloved parents who has always been there for me providing love, care, moral and financial supports to successfully complete this practical training report. Do not forget to all workers at Hospital Universiti Sains Malaysia especially workers at 'Unit Kejuruteraan dan Penyelenggaraan' (UKP) for their help to gain my knowledge about construction.

## Table of Contents

|                               |     |
|-------------------------------|-----|
| Declaration (Student).....    | i   |
| Declaration (supervisor)..... | ii  |
| Abstract.....                 | iii |
| Acknowledgement.....          | iv  |
| Table of Content.....         | v   |
| List of Table.....            | vi  |
| List of Figure.....           | vii |
| List of appendix.....         | vii |

### CHAPTER 1: INTRODUCTION

|   |      |
|---|------|
| 1.0 Introduction.....                                 | 1    |
| 1.1 Objective.....                                    | 2    |
| 1.2 Background company.....                           | 2-4  |
| 1.3 Introduction to hospital engineering service..... | 5-6  |
| 1.4 Organizational structure.....                     | 6-13 |
| 1.5 Nature of business.....                           | 14   |
| 1.6 Products.....                                     | 14   |
| 1.7 Market Strength.....                              | 14   |
| 1.8 Conclusion.....                                   | 14   |

### CHAPTER 2: TRAINING ATTENDED

|                         |       |
|-------------------------|-------|
| 2.0 Introduction.....   | 15    |
| 2.1 Exposure level..... | 15-19 |
| 2.2 Conclusion.....     | 19    |

### **CHAPTER 3: TECHNICAL REPORT**

|  |       |
|--|-------|
| 3.0 Introduction.....                                      | 20    |
| 3.1 Definition about building maintenance.....             | 20    |
| 3.2 Building maintenance objective.....                    | 20    |
| 3.3 Building maintenance works.....                        | 21-22 |
| 3.4 Maintenance system.....                                | 23    |
| 3.5 Types of building repair and maintenance services..... | 24    |
| 3.6 Problem encountered and how overcome it.....           | 25-26 |
| 3.7 Experience gained.....                                 | 27    |
| 3.8 Conclusion.....  | 28    |

### **CHAPTER 4: CONCLUSION**

|  |       |
|--|-------|
| 4.0 Introduction.....                  | 29    |
| 4.1 Lesson learned.....                | 29    |
| 4.2 Knowledge gain.....                | 29-31 |
| 4.3 Suitability of organization.....   | 32    |
| 4.4 Limitation and recommendation..... | 32    |
| 4.5 Conclusion.....                    | 33    |
