ACKNOWLEDGEMENT

First of all the author want to grateful the Almighty Allah S.W.T for giving me guidance and good health so that I can complete this dissertation report so well.

I want to dedicate my thankful to my charismatic lecture, Mrs Zarina Bte Isnin @ Ithnin, for her assistance. Without her instruct and dedication, this dissertation report will not have been the same as presented here. I really appreciate for your attention, patience and kind for me. Thank you.

In preparing to complete the study, it was never an individual effort. I am wishing to express my gratitude to my lovely family, friends and lectures for your endurance and love that keep me going.

Lastly, I want to thank to the entire person who involved in this study either directly or indirectly. Your love will always be an encouragement for me to do my best.

ABSTRACT

Government of Malaysia already stated on Federal Constitution, Article 8 Subsection 1 that 'All persons are equal before the law and entitled to the equal protection of the law'. However, it is different in real circumstance. The disable people in Malaysia are assumed as the person that could not have the opportunity for a better life because of discrimination on their needs. The objective of the study is to identify the problems relates to the disable person in school including student, teacher, staff and visitor. The study also desires to evaluate the level of awareness regarding disable person's requirement at normal schools. Other aims are to evaluate the advancement of the facilities provided and to recommend the suitable approaches and method to overcome the problem. The study which carried out at schools in Selangor had been analyzed to figure out the findings. The analysis shows the existing facilities provided are insufficient and inappropriate for disable person's usage. Nevertheless, it can be concluded that there are changes and improvement on provided facilities for disable person among these years.
