## **ABSTRACT**

Construction sector is one of the sectors that contributes to our country economy growth besides it helps to increase our Malaysia image as a develop country same as others countries. However, the accidents that occur in this sector often occur at construction sites and most of them involving foreign workers. It means the accidents are still happen although there are many procedures and action that government takes to prevent this problem. This study is conducted to be looking safety level for foreign workers at construction site and action from the site management in implementation safety and health to foreign workers. Questionnaire have been prepared and delivered to the foreign workers at selected construction site at Shah Alam. Interview question have to prepare and interviews to safety and health management at construction site. Decision results from that interview and questionnaire, will know safety level for foreign workers. Present decision will help to get objective for the research.

## **ACKNOLEGEMENT**

In the name of Allah, Most Gracious, most Merciful, Peace be upon Prophet Muhammad S.A.W.

I would like to extend my deepest gratitude and appreciation to my supervisor, Pn. Izatul Laili Bt. Jabar for continuous guidance, support and valuable advices throughout the period of dissertation.

My Gratefulness to En Azri Shamsir from Asal Bina Sdn Bhd, En. Maznan Osman from Marl Jaya (M) Sdn Bhd, En. Mohd Hafeez from Fernline Construction Sdn Bhd, En P. Theeban Raj from Dunia Epik Sdn. Bhd., and En. Muhammad Faisal from RDS Bina Sdn. Bhd. for valuable time and their co-operation in collection information and data from their organization.

I also wish to express my gracefulness to my parents, my family and my siblings for their support, love and prayer and giving me the opportunity to come this far in my education. Unforgotten to those who help me for their cooperation during completion of this academic project.
