ACKNOWLEDGEMENT

First of all, i would like to espress gratitude to UiTM Seri Iskandar and Building Surveying Programme for giving me chance to experiencing my own internship for about 4 months started from December 2016 until March 2017.

It is an honoured to get an experience by myself on how working nature is. I also would like to express my biggest thanks to Department of Irrigation and Drainage Machang for accepting me as a newcomer. These 4 months really teach me on everything that i could not learn from theory subject.

I have learn to improve my communication skills by handling out villagers report, it is quite challenging to satisfy every party. I am also able to involve in every single sequence of work starting from site investigation, tendering procedure including pre tender visit and how they choose every single contractors to be hired. I am able to review on how tender evaluation report had been done and it is such an amazing experience.

I also want to express a special thanks to Encik Sabri bin Sidek as a supervisor and engineer at JPS Machang for giving me so much information and explanation about my case study and other construction work. Also thankyou to Puan Roslidawati, Encik Hassan Zuhdi and Encik Ibrahim whose always patient in teaching and explaining every issues and told me about their experience and how they manage it. They also give me a chance for site visiting and treated me warmly.

Lastly, i would also like to say thankyou for everyone who involve during my trainee days, especialy my supervisor, Puan Siti Zubaidah and JPS staff for helping me out whenever i need them.
