ACKNOWLEDGEMENT

I honor my humble respectful appreciation and gratitude towards my most graceful and love aspiring merciful Almighty Allah S.W.T for blessing me with all required knowledge, health and courage to successfully accomplish and render this practical training report.

I dedicated to acknowledge with a deep sense of gratitude and appreciations to my training supervisor Mrs. Roshidawati Binti Rohizat for giving me idea on working out this practical training report. She was extremely helpful throughout the practical training period. Also to Mr Mohamad Riduan B. Abd. Hamid, Technician of Building Department JKR Hulu Perak, he would have given me utmost attention and information that is beneficial for me during my training period and also for my practical training report.

Also, I would like to express my appreciation to all lecturers and especially to my report advisor Mr. Nor Amin Mohd Radzuan from Centre (Masjid Baru Di Jalan Baru Grik/ Kulim Berhadapan Sek. Men. Teknik Gerik, Hulu Perak, Perak Darul Ridzuan) of studies for construction, faculty of Architecture, Planning, and Surveying (FSPU) UiTM Seri Iskandar for all their valuable assistance and guidance in assisting me in my report writing.

Lastly but not least I dedicated with full responsibility my respectful appreciation, honor and gratitude to my beloved parents who has always been there for me giving their full support in many ways until I successfully complete this practical training report.

Thanks to all people that contributed their ideas, without their advice and brilliant ideas, this report could not have been completed and of course my biggest gratitude towards JKR Hulu Perak for their support and guidance.
