## **Acknowledgement**

First of all, Alhamdulillah is the first word that I would like to say because had given me an opportunity and blessing to finish my report on time. This because, without Allah SWT blessing, I will granted that cannot finish completely on time. Then, this report has been given to all student practical in semester 6 (Practical Report) as a proven towards practical learning and the challenges outside working environment.

Next, the special thanks given to my lovely supervisors Pn Siti Zubaidah bt Hashim at UiTM Seri Iskandar, Perak and at my practical place Balfour Beatty Ansaldo, Pulau Pinang, Chief Hamidon Kaswan because they have sacrifice their own time in conducting this report. Without conducting and supporting of them, I granted can't handle this report successfully.

Furthermore, a lot of thank also given to my be loving parents because they have give me support to be patient in finishing this project even sometime it is so difficult to be done and also in supporting money to my destination.

Besides that, without all of them supporting, I'm sure that not so strong to face this situation and their support are very meaningful for me to improve myself became better.

Last but not least, according to the guideline given, I had finished the entire project. Thank fully to my team department survey because also give some supporting and teach me all of the new things and get to finish it in time even though sometimes got some problems which is cannot avoid. Thank fullness because give me fervency in this life.
