ACKNOWLEDGEMENT

My deepest gratitude to Tempua Business Engineering Sdn. Bhd. (KTUSB) for giving me the opportunity to undergo industrial training for a period of 12 weeks starting from 01 December 2016 until 31 Mac 2017. The opportunity has been given to me regarding exposure to the real world of work more challenging.

This internship has been a very good experience for me in the way that it has given me chance to understand the real work outside the classroom. I have learnt a lot about the office environment and my interpersonal skills and self-confidence have improved significantly.

Firstly, I would like to express my deep sense of gratitude to my honourable supervisor Puan Nurfazura Bt Mohd Nasir for her endeavour approach and outstanding supervision by which it has been possible for me to make a good combination of theoretical and practical knowledge in preparing this report.

Next, thanks to countless university supervisor, Sr. Dr. Nur Azfahani Binti Ahmad above all the efforts he helped me and supported me from the beginning until the end of the training industry. Do not forget also to colleagues who undergo industrial training in KTUSB for their cooperation in completing the tasks they are given. Finally, thanks to my parents who gave their undivided support and I fell even when his spirit up.

Thank you.
