ACKNOWLEDGEMENT

First of all, praise is to Allah, the Almighty for the blessing and mercy that had been given to us, health and inspirations during our study. So, I can complete this final project. Without Him, we couldn't stay patient and in control in writing this final project from the first page to the last page.

Second, Shalawat and Salam always to our beloved prophet Muhammad PUBH, the last prophet and the prophet who had brought us from the darkness to the lightness.

It is a genuine pleasure to express my deep sense of thanks and gratitude to my lecturer, supervisors Puan Zuraihana Binti Ahmad Zawawi whose expertise, understanding, generous guidance and support made it possible for me to work on. Their dedication and keen interest above all their overwhelming attitude to help his/her students had been solely and mainly responsible for completing my work. Timely advices, scholarly advice and scientific approach have helped me to a very great extent to accomplish this task.

Also thank profusely all the staff of Anjung Teknik located at Malacca especially manager of the company which is Encik Kamarudin bin Md Said, Miss Syarifah Aziemah Binti Syed Hassan which is my supervisor and the colleagues in the company for their help and co-operation thought out our final project report.

Thanks to my friends and family for support and give an advice to finish this final project report. They have helped me in many way such as giving me guideline and information how to create an excellent report.

Finally, I realize that there are so many shortcomings in this study in spite of all my efforts. Therefore, I would be very grateful for any corrections, comments, and criticism from all readers to improve this project.

ABSTRACT

Anjung Teknik is one of conservation company located in Malacca which is specialised in conservation works especially for heritage buildings such as museum, trade fair, palace, and historical buildings. The speciality of this company is the employee major in architectural and building survey context. The main task of Anjung Teknik is doing the report of all conservations works either before construction, during construction and after construction of some buildings. The building that always be conserve have been certificate as a historical building by important parties such as UNESCO World Heritage Centre and parties involve in preserver of the building in the World. These efforts of works is to save the building from abandon, liquidated and lost the value of the buildings of some places. Different building have different history and their story in it. It is a specialized for the historical building especially for certificate heritage buildings.
