ACKNOWLEDGEMENT

Assalamualaikum,

Bismillahirrahmanirrahim for The Most Gracious. Alhamdulillah, the report for final project this semester I manage to complete it on time. Even though it's only a short period time to complete this report, but I have try my best to complete the assignment. First of all, I would like to extend my deepest gratitude and special thanks to all those who have directly and indirectly guided me while I'm were doing this report. I want to express my deepest appreciation to my lecturer Sr. Pn. Norehan Dato' Haji Mohd Noor.

I express my warm thanks to Gerbang Nusajaya Sendirian Berhad for giving me opportunity to have accepted me as their intern in their company. The company has given me information and permission for doing this report. They also help me a lot by explain to me and teach me how to do the repair on defect in construction base on my case study. I also would like to show my grateful to some amazing individuals for the guidance, and advice throughout 14 weeks, the period of my training at Gerbang Nusajaya. Besides that, I would like to thank Mr. Hairul bin Azlin (General Manager) and also her team member, Ms Herna Willis (Office clerk), Mr. Zul Mahani (Site supervisor), and Mohd Shafiq (Site supervisor) for giving me many new experience including develop my understanding, knowledge, and feel of the real situation of working at maintenance department, and also some information about construction work. Then, I could like to give my sincere credit to Mohamad Hidayyat (whom also an Internship student that doing practical training at Gerbang Nusajaya Sdn Bhd) and also to the staff of at there who have give me cooperation and help for me to learn and understanding more about construction. It is a big honour for me to be part of Gerbang Nusajaya Sendirian Berhad team even though it is only for 4 months.

ABSTRACT

This report will be explains about repairment work during Defect Liability period in construction. Defect in construction is an important element in construction work. In this report I will be explain about how defect work in construction base on Gerbang Nusajaya ways. This report is divided into several chapter and start from chapter 1. Chapter 1 is the details of company and end at Chapter 5 conclusion. At this report also I will attached my reference and appendix as extra information. For chapter 1 I will explain details about my company profile during my internships at Gerbang Nusajaya. The location of my company during internship. I also have talk about organization chart of my company. And also another topic that I will explain in this chapter. Chapter 2 is literature review, at this chapter I will explain introduction of repairing work, definition of defect liability period, quality and workmanship on building, process of evaluation as stated in contract and lastly for this chapter I will talk about the example of building report and plan and list of defect. Next, chapter 3 is case study. In this chapter I will explain in more detail about my case study, what place scope involve in my case study such as office, main road, sewerage treatment plant (STP), and backroad. The process of defect work done in RMMJ that involve in my case study, which is the ping pong test, the acid test, the manhole inspection and the Mechanical and Engineering (M&E) inspection in my case study. Chapter 4 is problem and recommendation. In this chapter I will talk about the problem that usually happens in my company during the repairment process and I also will give some suggestion for overcome the solution for this problems. And lastly Chapter 5 is conclusion. That I will conclude all chapters partly that I do in this report.
