MBA

JANUARY 2013

ACKNOWLEDGEMENT

We would like to express our sole gratitude to Allah s.w.t for bringing us the patience, the joy and the guidance throughout the program. We thank Allah; we managed to complete the dissertation within the time given.

We wish to express sincere appreciation to our supervisor, Associate Professor Dr Norashikin Ismail for her guidance and assistance leading to the conclusion of this research project. Fruitful discussion with her during the developing stage on the research proposal has led us to successful completion of the project and for that we are grateful to her.

Few of our friends and colleagues have been of great assistance in this research study and we gratefully thank them for their help: Dr. Noraini for her opinion upon the presentation, PM Kamel Taufiq during preparing the proposal, Dr. Effendi and Husnizam Hussin for sharing knowledge on how to develop research data and make us familiar with SPSS when we had our difficulty during final stage to extract the data.

Our thankfulness to all our EMBA lecturers who have significantly contributed toward our better understanding of the business and management issues in which to certain extent have been applied in this research study.

Finally, appreciation also goes to our families for their patience, sacrifice and great support throughout these MBA years.

Thanks to all.

ACKNOWLEDGEMENT

TABLE OF CONTENTS

CHAPTER 1- INTRODUCTION

1.1 Background of the Study	1
1.2 Problem Statement	4
1.3 Objective of the Study	6
1.4 Significant of the study	7
1.5 Limitation of the study	9
1.6 Organization of the Study	10

CHAPTER 2- LITERATURE REVIEW

2.1 Introduction	11
2.2 Concept of Financial Distress	13
2.3 Concept of Financial Distress in Malaysia	14
2.4 Concept of Financial Ratio	16
2.4.1 Liquidity Ratio	16
2.4.2 Profitability and Productivity Ratio	18
2.4.3 Cash Flow Ratio	20
2.4.4 Solvency Ratio	21
2.5 Predicting Model: Logit, Probit and Logistic Analysis	22

CHAPTER 3- RESEARCH METHODOLOGY

3.1 Introduction	26
3.2 Sample and Data	27
3.3 Independent and Dependent Variables	28
3.4 Research Method	30
3.5 Data Collection	31
3.6 Data Analysis	32

3.7 Hypothesis Statement	33
--------------------------	----

CHAPTER 4- FINDINGS AND ANALYSIS

4.1 Introduction	35
4.2 Descriptive Analysis	36
4.3 Logistic Regression Analysis	38
4.3.1 Estimation results of Logistic Regression Analysis	38
4.3.2 Classification results of Logistic Regression Analysis	41
4.4 Result Equation	42
4.5 Chapter Summary	45

CHAPTER 5- CONCLUSION AND RECOMMENDATION

5.1 Introduction	46
5.2 Discussion	47
5.3 Recommendations	49
