## ACKNOWLEDGEMENT

First of all I am very thankful to Allah S.W.T. who is beneficent and merciful. I would like to thank my family for their unlimited supported. I'm very much grateful to have them around me through ups and downs to completing this report.

Secondly, to Usima Sdn. Bhd. for giving me once in a lifetime chance to gain more knowledge and experience with them. Be working with the best team is very priceless and definitely helping me in the real working environment in the future. Even get 4 months only in practical, there are many things that I can learn.

For generously sharing their wisdom, I pay homage to En Mohd Farid Bin Hj Johari who is Project Manager at *Kem 4 Rejimen Renjer Diraja (4RRD) Oran, Perlis* for his kindness to lead and showing the correct way of doing all the works related to this report and without hesitation giving information needed. My precious friends for the stressful yet exciting brainstorming and knowledge share sessions and also other who are involved directly and indirectly making this report a success. I thank to everyone who involved from the beginning until the end and hopefully this report can be a reference for those who needed.

Thank you very much.
