## ACKNOWLEDGEMENTS

In performing my internship, this small success of my practical training would not be achieved if there were no countless helps and guidelines from these respected persons. First of all I am grateful to Allah SWT for giving me a peaceful mind and a great health to accomplish this task. The completion of the task gives me much pleasure. Then, I would like to thank to my supervisor, Sr Dr Mohd fadzil Mat Yasin for the valuable guidance and advices. He willing to motivate me to contribute to my internship session. I also would like to thank her for showing me some examples and useful techniques in the procedure that related to the topic discussed. In additional, I would love to thank to my classmates because of the availability from all of them while sharing the experiences and ideas.

Besides, I want to thank to my internship supervisor, Mr Kamarul Azudin b Hj. Baharuddin and all staff engineering and building unit at Majlis Daerah Tampin. They were in-charged in order to evaluate my assessment and performance related to the industry works. They also gave me some priceless experiences about construction that I will not gain in the class. I also want to thank to the most important person, Sir Hj. Mohamed Roduan b Ujang, the Director of his organization Majlis Daerah Tampin. He gave me chance and opportunity to work in his organization in order complete my internship session for seventeenth weeks.

Last but not least, my special thank to my family for give motivate and guide me over the years.

Thank you so much.
