Tuan/Puan/Prof.Madya,

KELULUSAN PERMOHONAN UNTUK MENJALANKAN PROJEK PENYELIDIKAN

Perkara di atas adalah dirujuk.

Sukacita dimaklumkan permohonan tuan/puan/Prof.Madya untuk menjalankan penyelidikan telah diluluskan dalam Mesyuarat Jawatankuasa Teknikal Unit Penyelidikan, Pembangunan dan Pengkomersilan Universiti Teknologi MARA (UiTM) Pulau Pinang yang telah diadakan pada 14 Julai 2004.

Butiran permohonan yang diluluskan adalah seperti berikut:

Nama Ketua Projek : Salina Budin

Ahli Projek : Aznifa Mahyam Zaharudin
Ir Zulkifli Rasid

Tajuk Penyelidikan : Preparation on chemical laboratory layout template (safety and health)

Keputusan : Diluluskan dengan peruntukan RM 20,000.00

Tempoh : Jun 2004 – Mei 2005

Berikut disertakan dokumen-dokumen untuk panduan dan tindakan pihak tuan/puan/Prof.Madya selanjutnya.

1. Perjanjian bagi menjalankan Projek Penyelidikan, sila isi dan kembalikan kepada pihak kami untuk ditandatangani oleh pihak seterusnya.
2. Borang laporan kemajuan yang perlu dikemukakan kepada pihak kami setiap empat (4) bulan.

Tarikh : 9 October 2006
No. Fail Projek : 600-UiTMCPP (UPP.5/2/1)

Ketua

Institut Penyelidikan, Pembangunan dan Pengkormersilan
Universiti Teknologi MARA (UiTM)
40450 Shah Alam

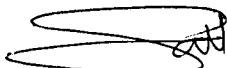

Prof./Prof. Madya/Tuan/Puan,

LAPORAN AKHIR PENYELIDIKAN "PREPARATION ON CHEMICAL LABORATORY LAYOUT TEMPLATE (SAFETY AND HEALTH)

Merujuk kepada perkara di atas, bersama-sama ini disertakan 3 (tiga) naskah Laporan Akhir Penyelidikan tersebut untuk makluman pihak Prof./Prof. Madya/Tuan/Puan, .

Sekian, terima kasih.

Yang benar,

SALINA BUDIN
Ketua Projek Penyelidikan

ABSTRACT

Safety and health in chemical laboratory are two important aspects that need to be considered and practiced. Ignored or no awareness on this two aspect will invite accident or effect on user's health. Fire and chemical exposure are two highest risks in chemical laboratory. Good layout and well fire prevention plan will help to avoid fire occurring and proper chemical handling and storage are required to avoid chemical exposure. Again, best layout plan are very helpful to gain this. Failing in providing and controlling safety and healthy chemical laboratory, will led to lost in both properties and life. Beside, it do not fulfilled government requirement under "Occupational Safety and Health Act 1994". This project will focus on efficient chemical laboratory layout as well as to look on best handling and chemical storage in order to eliminate the exposure. The application of fume hook and Personal Protective Equipment (PPE) are also taken into account. Finally, basic guidelines for laboratory safety and fire prevention are proposed. The information will be useful and serve as a guideline to set-up a safe chemical laboratory.
