UiTM KAMPUS JASIN

Abstract

UiTM is the largest university in Malaysia which comprises one main campus, thirteen automous campuses and twentyone satellite campuses. Currently, UiTM houses approximately 168000 students and 17000 staffs. Due to high number of student admission each semester, delivering information to new student can be inefficient and miscommunication could occur. Nowadays, information can be easily accessed and obtained through the means of mobile technology. Hence, the UiTM Student Guidebook is proposed and developed to address the issues arise. The UiTM Student Guidebook provide a platform for students to conveniently accessed relevant information regarding UiTM in general and assist them by providing information on student's frequently asked question. For now, UiTM Jasin campus is chosen to be the pioneer campus for this project and all the information is gathered from the Student Affairs Division of UiTM Jasin Campus. This application is developed for Android-based smartphones and most of the information can be accessed offline. This project aim is to provide assistant to UiTM students especially newly registered students and hopefully can be expanded to cater other campuses.

ASCAR TOOLKIT V2

Amirul Hakimi Bin Azmi, Amalea Binti Murtadza, Mohd Idham Bin Mohd Yusof,
Muhammad Qayyum Bin Makhtar, & Zulaikha Binti Noor Azam

UiTM SHAH ALAM

Abstract

ASCAR TOOLKIT V2 is an innovation pioneered by the students association under the Faculty of Administrative Science and Policy Studies (FSPPP). This product is an output resulted from the FSPPP students conferences organised in UiTM Seremban campus after FSPPP successfully organised its maiden student's carnival called Administrative Science Carnival (ASCAR) 2016. This project is a toolkit that will assist the organiser in organising ASCAR as it will be an annual event for the faculty. This product will be used by the students association in campuses that offering programmes offered by FSPPP to have a standardised system for handling the ASCAR programme. It will be the trademark for the faculty, one of the oldest in UiTM. This product will be able to guide the organiser to have systematic and efficient programmes that will generate income for the faculty and student society. In future this product will be improved through establishment of necessary system or database that may support the implementation of ASCAR. It will also hope to be a guideline for other students association in the other faculty in organising a large carnival.
