Abstract

Transformation of Technology in Tourism Android Apps become an important agenda in Malaysia in term of developing human capital who is able to give a fierce rival to outside competitors. Involvement from all in strengthening Technology in Tourism Android Apps is vital in order to achieve the aim on developing skill work force by the government. The objective of the Technology in Tourism Applications Android is to make design and create an android application for chalet in Sabak Bernam. Therefore, this study aimed to identify factors that lead to technology on select applications androids to help tourist find accommodation facilities in Sabak Bernam. Students create android applications for tourists to get more information and details easily using ChaLet'sGO application. This application contains information on chalets, attractions, amenities, and location. This application can develop Sekichan, Sungai Besar and Sabak Bernam. It also provides details on facilities, accommodation and attractions around the chalet. This application can be used in android phone while using data. In ChaLet'sGO it has provided a map to the chalet, address and also the price of the chalet. Tourists can booking a chalet with ChaLet'sGO Apps. Chalet also provides accommodation and facilities. Furthermore, the chalet also provides transportation like Uber. The main objective is to create ChaLet'SGO gives tourist many advantages by using our androids applications while looking for the best in Sabak Bernam. This application is also the first android that only provides information about chalet in Sabak Bernam. This study expected to provide a greater opportunity to the student in creating new application for tourist to travel in Sabak Bernam.
