ACKNOWLEDGEMENT

Alhamdulillah, praise to Allah, the Most Merciful, the Most Graceful.

I would like to extend my highest heartfelt gratitude for the guidance, advice and help rendered throughout the period of training by the following group of amazing individuals. First and foremost, I would like to thank Encik Mohd Zaidi as the Project Manager for the opportunity given, to conduct my training in his esteem company. His team of professionals comprising of Mr. Saw Hoo Kim as the Operation Manager, Mr Mohd Zahir as the site supervisor, have enabled me to learn and develop my understanding, knowledge and feel of real time projects, and the theory involved in analysis of structures, building and civil works. They are also responsible towards streamlining and assessing my training. It is an honour for me to be given the opportunity to 'work' with all of you. I would like to express my gratitude to all of the workers in Detik Ventures Sdn Bhd and my friends for the supporting and willingness to spend some time with me.

I also want to thank all the UiTM lecturers that have taught and nurtured me in becoming a better student and person. I also would like to extend my deepest appreciation to the lecturers who were directly involved during my training stint. To Sr Dr Mohd Azian Zaidi, Supervising Lecturer, Puan Siti Zubaidah Binti Hashim, Visiting Lecturer, and Encik Mohd Faisal Bin Baharuddin, Practical Training Coordinator, I value the time, effort, encouragement and ideas that they have contributed towards the successful completion of my training, this report and the valuable knowledge that have been shared over the last few semesters. Last but not least, my special thanks to my beloved parents for their sacrifices over the years.

Thank you so much

ABSTRACT

Pile foundation is a very important thing to elaborate, it is the type of deep foundation. Therefore this report will discuss about the pile foundation that commonly use in the building develop for the building envelope. The objective of this report is to identify the types of piles used in the constructions and test that related with pile construction. It will focus on the pile works that provides in the construction of pile for strong building structure. This report will also look at the problem that usually could happen in the construction of pile.
