## ACKNOWLEDGEMENT

---

### ACKNOWLEDGMENT

I would like to express my appreciation to my advisor, Puan Rohani Ibrahim for her guidance and advises in completeness of my thesis.

Not forgetting to my Supply and Distribution Manager, Tuan Haji Mahmud Zainuabidin for his guidance and trust during my practical training.

Besides, trillion of thanks to En. Rosdi Wahab (Finance executive) and Shahrum Mohd for all information they gave. Also to Ainul Bariah for her kindly help during my critical path in preparing this thesis.

Last but not least, thanks to all PEMSB staffs for their full co-operation.

## SUMMARY

---

This thesis is about Product Warehouse of Polyethylene Malaysia Sdn. Bhd. or PEMSB. It produce raw material for plastic industries towards the world wide.

PEMSB is located in Kertih, Terengganu. Researcher is interested to know the relationship between computerised system and communication towards the successfulness of inventory management of Product Warehouse.

Researcher believe that communication may influence the result between computerised system and inventory management of PEMSB. The study is a sectional study which done once. The information gathered will only be specified towards the topic of discussion. Besides that, the study will also be limited by the time, cost and the availability of the person incharged.

It is the researcher hope that the study will benefit all parties involved especially MARA Institute Of Technology and PEMSB.
