ACKNOWLEDGEMENT

The completion of this project could not have been possible without the participation and our assistance from the lecturers and also each and every one of JKR staff. Firstly I, AFIQ NAZRAN BIN HUSAIRI would contribute our gratitude to Sr. Puan Aida Affina that helped me along as through- out the progress as my supervisor. Unlimited examples were given in order to let me understand well among the topics in order to give us the chance to interpret in this report.

Second is Encik Muhammad Najdi which is the assistance senior engineer of the Facility engineer and also as my supervisor at this JKR Kota Setar that helped and teaches me in order to complete my report and my internship program. Next, would be each and every one in JKR who contributes through thick and thin in order to complete this project. With their commitment given in this project, i have completed the task smoothly.

Lastly, I would like to thank all those who helped throughout the process of my internship program.

1.0 Introduction of Company Background

The Malaysian Public Works Department or in Malay (Jabatan Kerja Raya Malaysia), abbreviated JKR, is the federal government department in Malaysia under Ministry of Works Malaysia (MOW)/(KKR) which is responsible for construction and maintenance of public infrastructure in West Malaysia and Labuan. In Sabah and Sarawak, a separate entity of Public Works Department exists under respective state government's jurisdiction but both departments are also subordinate to the parent department at the same time.

JKR also is divided by branch which is cover up for Building branch, road branch, slope engineering branch, electrical branch, mechanical branch and military work branch. JKR not only build at all, they also maintain the condition of state road, federal road, public hospital, public school and public government buildings.

Malaysia Public Works Department (JKR) has been established since 1872 and serves as a technical agency to the Government of Malaysia. JKR is responsible for implementing infrastructure development and maintenance projects to various ministries, departments, statutory bodies and state governments such as roads, buildings, airports, ports and jetty.
