ABSTRACT

The purpose of this study was to examine the effect of using power point software in order to upgrade the skills of recorders fingering, particularly in the fingering of note B, A and G for Year Four student. The respondent were the primary student of Sekolah Kebangsaan Sri Wangi 2 one of the rural school in Gua Musang, Kelantan. A total of 25 respondents had been selected for this study. These Year Four student consists of 15 girl and 10 boy who faced problems with note B, A and G recorder fingering were chosen earlier. Data was gathered from observations conducted during the teaching and learning process. The results of the study indicated that the use of power point software to improve the recorders fingering skills, particularly in the fingering of note B, A and G.

Acknowledgement

In the name of Allah, most gracious, most merciful. All praise belongs to Allah SWT for giving researcher guidance as well as the opportunity to complete this study. First of all, researchers would like to express gratitude and sincere appreciation, admiration and respect to the lecturer UiTM Shah Alam especially lecturer Faculty of Education and Faculty of music which helped in the process of completing in this study. They provide encouragement, patience, support and advice that allow researchers to complete this study. Researchers also express thanks and appreciation to Headmasters and teachers of Sk Seri Wangi 2, all colleagues for their assistance in helping researchers during data collection which without it is not possible for researchers to complete this study. The cooperation of the Jabatan Pelajaran Kelantan (JPNK) , through the Gua Musang's Pejabat Pendidikan Daerah (PPD) is very much appreciated. Appreciation is also extended to all involved either directly or indirectly, to help ensure the success of this research project.

DECLARATION
