ACKNOWLEDGEMENT

Firstly, we would like to thank Allah SWT for giving us the strength and courage to complete this report without many problems. Without Allah's help, it is impossible for us to do so.

We would also like to thank En.Bakri bin Ali, our supervisor for all the guidance, encouragement and useful advices he had given to us. His friendly approach was a big motivation for us.

Then, we like to thank En. Saiful Nizam , the technician of Thermodynamic Lab for all his help during our experiment session. Also a special thanks and gratitude to other panels and lecturers who give such important comments about our final project.

Last but not least, a very big thank you to our family, friends and other individuals that have help us in so many ways during the completion of this report. Their moral support and motivation was a timely boost for us.

ABSTRACT

Study about 2&4 stroke engine actually describe about the both type of engines characteristics. The characteristics included the part of engine, working principle, advantages and disadvantages also comparison between the engines. In this research, we proved the theoretical data by our experiments. We have done the lab experiment to determine the performance of 4 stroke petrol engine and also the field experiment to measure the fuel consumption of both types of engine. Lastly this report will allow the readers to know about these engines.

TABLE OF CONTENTS

TOPICS	PAGE
AUTHOR'S DECLARATION	i
SUPERVISOR'S CERTIFICATION	ii
HEAD OF PROGRAMME CERTIFICATION	iii
ACKNOWLEDGEMENT	iv
ABSTRACT	v
CHAPTER 1: PROJECT REVIEW	
1.1 PREFACE	1
1.2 OBJECTIVE	1
1.3 SCOPE	2
1.4 SIGNIFICANT OF PROJECT	2
1.5 GANTT CHART	3
CHAPTER 2: LITERATURE REVIEW	
2.1 MEANING OF ENGINE	4
2.2 ENGINE DEVELOPMENT	5
2.3 CLASSIFICATION OF ENGINE	9
2.4 TERMINOLOGY OF ENGINE	12
2.5 PARTS OF ENGINE	15
2.6 ENGINE MEASUREMENT AND PERFORMANCE	24
2.7 CRITERIA OF PERFORMANCE	26
