# Acknowledgement

This is the first edition of the **CELIK CPR A Training Handbook for School Teacher**. This training handbook is dedicated to the thousands of school teachers across Malaysia who contributed their time and effort to support the needs of teaching life-saving techniques and skills to all school students.

The treatment recommendations and related training guidelines included in this handbook were adopted and adapted from the international guidelines and have been reviewed by the respective advisory council, a panel of internationally recognized experts in fields that include emergency medicine, occupational health, sports medicine, school and public health and emergency medical services (EMS). However, additional round of reviews was conducted locally through the selected experts from various fields to ensure its reliability. Authors would like to extend their gratitude for the dedication and excellence commitment given which made this handbook possible.

Lastly, authors would also like to extend a grateful thank you to our illustrator, Miss Nurul Ain Bt Mohd Ilias @ *ainILLIAS* from a pre-vocational teaching institute for assistance in designing and for helpful suggestions on diagram content matter. The ideas, suggestions and comments helped the authors in making this first edition the product it is.

## Table of Contents

<b>Authors</b> .....	- 2 -
<b>Copyright</b> .....	i
<b>Acknowledgement</b> .....	ii
<b>Preface</b> .....	- 1 -
<b>Handbook Guideline</b> .....	- 2 -
<b>General Guidelines</b> .....	- 3 -
