ACKNOWLEDGEMENT

First of all I would like to thank the most precious, the most merciful, our almighty God, Allah S.W.T. as I got the chance to breathe and have this opportunity to live and learn and also without HIM I will not be able to complete my internship report without HIS blessing and wants.

Next, I would like to express my special gratitude to my supervisor Sir Irwan bin Mohammad Ali for giving me a lot of help and guidance in finishing my report smoothly. His willingness to motivate us contributed tremendously to our report. I also would like to thank him for showing me some of the examples related to my report topic.

Besides, it is always a pleasure to remind the staffs in the Cobra Engineering that for their sincere guidance especially to the company's manager Mr. Fizam bin Razali and also not forget to the supervisor Mr. Ihsan who is willing to cooperate with me despite their working days and giving me all of the information needed to complete this report.

Last but not least, I am thankful to my parents and friends who have been supporting me through the hard to make sure that I am not give up in finishing my industrial training and also finishing this report beside of supporting me in terms of financial resources.

I am apologize all other unnamed who helped me in various ways to complete this report. There is no valuable words to express my thanks, but my heart is still full of the favours received from every person.

ABSTRACT

The purpose of this industrial training is to make sure that what I had learned from the first semester to the last semester at UiTM be applied during the internship session. It also give more new experience and knowledge and also improving the communication skill to make sure that we can speak with confidence with people and also other staff. It is compulsory for building survey to carry this report because it give 40% from the total mark for this semester.

As a conclusion, by doing this industrial training, I had gain more information and knowledge about how to manage the construction site and workers at site. I fell so glad because from this internship, I have knew many thing such as how to solve a problem at site and to work with the professionals. I hope this report which has be done are following the requirement and lecturer are sastified with my report.
