ACKNOWLEDGEMENT

Assalamualaikum,

First of all I want to say “Alhamdulillah” to our God for giving me strength, patience, to do this report and finishing my internship for this semester smoothly and with no problem. Without his blessings and award, I may not be here today. I also would like to thank Arena Perintis Sdn. Bhd, my place of internship for accepting me. The supervisors, Mr Tay Tick Yueh, Mr Yeoh How Hwai Mr Kairul Hisham and other staffs are very kind and treating me nicely. They also did not tired from teaching me the things that I did not know.

Other than that, I would like to thank my supervising lecturer, Sir Asrul bin Hassin for guiding me and giving me idea in terms of the topic of this report and the things that I may not know of and confused. Besides that, I would like to thank my parents for supporting me financially and moral. They also become my motivator whenever I am down.

Not to forget, I would like to thank my friends who helping me directly or indirectly in giving me ideas, knowledge and many more. Lastly, I would like to thank those who have helping me in completing this report directly or indirectly. Thank you.

ABSTRACT

This report shows the findings from practical training that student had undergoes for 4 months starting from 1st March 2018 until 29th June 2018. This report should consist 5 chapter which consist of the company background, literature review on the topic selected, case study relevant to the title of the report, problem and recommendation and lastly, conclusion from the report. The topic of the report varies depends on the company / firm scope of work that were approved by the program coordinator and by consult with the supervising lecturer that the students were assigned. The topic of this report are "Defect Management During Defect Liability Period (DLP)". In this report shows the introduction to defect liability period, the process of how defect liability period were done, the duration, parties that were involved in defect liability period and etc. Besides that, this topic are focused on a roadwork which the DLP are not over yet. The method to obtain the information are by documentation from the company, interview with the person in charge of the project from the company and from books and journal. However there were some setbacks that the author have to face in completing this report. The author hopes that this report will provide good information and beneficial to others.
