ABSTRACT

EXAMINING STRINGS PROGRAM IN SCHOOL: PROFILING AND RECOMMENDATION

The purpose of the study is to examine the current profile of school string program. The purpose of this study is to identify the teaching techniques, method books also other resources that string teachers used and to identify the playing problems faced by the teachers during teaching the strings ensemble. The findings of this study will help us to know what is happening to the development of strings program in schools and give benefit to the school teachers as it will help them to know and learn the suitable methods that can be used, and know the type of method used by a good string orchestra teacher in school. Thus, these methods also can help the students to improve their ability to play strings instruments either in individual skills or playing in ensemble skills. Furthermore, this study can be an additional reference for other researchers that have the same interest and improve it to make it better. The result on finding indicated a wide range about the usage of different method books on teaching the strings in schools. It is also to identify the problem faced by the teacher to teach strings instruments.

ACKNOWLEDGEMENT

I would like to express my greatest gratitude to Allah S.W.T. for giving me strength, good health and wisdom to during the process of completing this research.

I also would like to thank my advisor and lecturer, Assoc. Prof. Hanizah Hj Musib, who guided me throughout the process. This study would not have been possible without her advice, suggestions, guidance and encouragement.

Thank you to my family members and friends who kept on supporting me with moral support. The support from my family have gave the strength and encouragement in completing this research. Most importantly, I would like to thank my parents Mr. Zaidi and Madam Mahani, for their love, prayers, understanding, and compassion over the miles and years. They have been an unwavering foundation of support and I share this achievement with you. Big thanks to my siblings Nurul Husna and Zulajmal for their encouragement and support during my hard times. Not to forget my friends who helped with suggestions.

A great thank you to my respondents who are willing to spend their time to be interviewed in order for me to complete this research. This research would have been impossible without them.

Last but not least, I am truly indebted to Faculty of Music and Universiti Teknologi MARA for giving me the opportunity to complete my studies.
