ABSTRACT

The purpose of this study is to analyze the music elements and lyrics in Lost Stars by Danielle Brisboise. The primary source for this study is an in-depth analysis on the transcribed scores. The music elements that can be explored through the song are rhythm, dynamics, melody, harmony, tone colour, texture and form. However, only harmony and melody will be analyzed. For the lyrics, the meaning of the selected lines will be explained based on the idea of figurative of language. This can be a guide for composition students to expand their creativity in terms of music theory-wise and writing a clear and creative text for lyrics.

ACKNOWLEDGEMENT

First and foremost, I would like to thank God for the guidance, strengths, and His blessings in completing my research. I feel like I am the most blessed person on earth as God had allowed me to complete this research.

I would like to express my appreciation to my supervisor Associate Professor Doctor Tazul Izan Tajuddin for his willingness to give me his time, patient guidance, and useful critiques for this research. Your warm encouragement and thoughtful guidance has been a great motivation for me. I am very grateful for his support and ideas.

I would also like to give my sincere gratitude to other lecturers who have been mentoring me throughout the Degree program and also to both of my respondents who have always been there supporting, encouraging and their limitless cooperation for this research.

To my friends that helped me on my score transcription and discussion, Nigel Prudent, Rufena Eusebius and Abbey Angel. The preparation of this research would not have been possible without the contribution of them all.

In addition, I would also like to take this opportunity to express my appreciation to my beloved father, Tom Jangin and my dearest mother, Aria Segara for supporting me financially, prayers, and loving encouragement throughout the process. Not to forget my brother, Raphael Lahang and my sister, Betsy Sabong for always been there for me, guiding me on doing this research project properly as they had done it before and for being the closest person when I am in need of help and motivation.

Last but not least, I wish to acknowledge the help provided by one and all who, directly or indirectly, had lent their aid in this project.
