ABSTRACT

This industrial training report is based on the period from 3rd February 2016 to 1st July 2016 in Twopiz Hosting Sdn. Bhd. During the internship, I have gained a lot of new experience in new environment in which the knowledge from the tasks I have been assigned exposed to build up skills especially technical skills. I have been trained on how to develop a system by using Agile method and manage my time to meet deadlines on each development phase. During the training period, I explore something new that I never learned in university that can be practiced by time to time for my career development.

Keywords: system development, time management, programming, code management

ACKNOWLEDGEMENT

I am really thankful to God in which I was able managed time to complete my industrial training at Twopiz Hosting Sdn. Bhd. for 5 months starting from 3rd February 2016 until 1st July 2016 to fulfill the requirements for Bachelor of Information Science (HONS.) in Information System Management.

In additional, I would like to thanks to Mr. Clay Lua, the founder of Twopiz Hosting for giving me an opportunity to part of the company for internship programs. All knowledge I received is very valuable that I am now can be regarded as professional programmer.

I would also like to thank to my faculty supervisor, Puan Masitah Ahmad, for her guidance & constant encouragement during my internship period. Her support has giving me zeal to hang on to whatever that makes me strong.

Last but not least, I would like also to thank you to my parent and fellow friend that continued in supporting me during the industrial training. Then, I like to thank you to all parties that have contributed either directly or indirectly in order me to accomplish the industrial training.
