Faculty : Department of Built Environment Studies and
Technology, Faculty of Architecture, Planning &
Surveying

Title : A Study on Recreational Facilities at Taman Tasik
Seremban, Negeri Sembilan

Signature of Student : 

Date : 2 August 2021

ABSTRACT

In recreation sector, the quality of recreation facilities is important to serve the better communities. The cities always associated with the economic activities, from these activities it will increasingly affect the natural environment of the city. The existence of recreation area in the city plays an important role in controlling the balance between development and conservation of the natural environment. A study has been conducted on recreation facilities at Taman Tasik Seremban, Negeri Sembilan. The study was focused to a few issues and problems related to factors that contribute the sustainability of Taman Tasik Seremban that include, parking area, abandoned facilities, and safety aspects. To achieve the aim of this study, some objectives were provided that include to explore the recreation facilities of the strategic location of Taman Tasik Seremban, to identify the background of the study area, to understand principles of recreational facilities planning, to examine issues and problems of facilities planning including their conditions and to propose strategies to improve the situation. There are three (2) methods used that include questionnaire through online, observation. Based on the 41 respondents, the finding shows that there were five (3) problem statement that contribute to the recreation facility at Taman Tasik Seremban that include lack of parking area, lack of safety facilities and not well-maintained and abandoned facilities. In the end of this research, some recommendations were recommended that include by improving the attraction of recreation, add more recreation facilities, improve the existing facilities, and provide safety and security at recreation area.

ACKNOWLEDGEMENT

Bismillahorrahmanirrahim

In the Name of Allah S.W.T the Most Gracious, Most Merciful. All praise is given to the Almighty for giving me an opportunity to complete this research study successfully for the six (6) months.

Firstly, I want to take the opportunity to thank to the staff in local authority which is Majlis Bandaraya Seremban (MBS) that was contribute in this research study by providing me some useful information. Besides, the highest appreciation and gratitude expressed to my supervisor, Dr. Arina Rahmat for giving me a lot of guidance, help me in learning a process to complete the study and spending her times for discussion with me. Without her guidance, I would not be able to complete the study on the time given. I also want to thank Dr. Syazwani Ahmad as Planning Project Paper Coordinator, for her guidance, tolerance, supervised and reminded us the important dates during this semester.

Finally, I would like to express my very profound gratitude to my parents and family for providing me with physical and mental support in process of researching and writing this thesis. Last but not least, most thankful to all my friends for supporting and encouraging me in completing this thesis. This accomplishment would not have been possible without them. All your kindness will be never forgotten. Thank you.
