Faculty : Faculty of Architecture, Planning and Surveying
Title : Park Design Influence On Community's Participation In
Recreational Activities At Persiaran Sembilang Public
Recreation Park.

Signature of Student : 

Date : 2 August 2021

ABSTRACT

Recreation is a crucial activity that helps maintain good health and yet is always neglected. Usually active or passive recreation is done in a park because the space is wider and the environment is peaceful. The study was focused on a few issues and problems related to factors that contribute to the lack of visitor's participation in recreational activities at Persiaran Sembilang Public Recreation Park. In order to achieve the study's aim, some objectives were provided which include method such as identifying and analyzing the park's visitors behavior and park's elements, such as the facilities or access in order to understand fully the issue in the study area. Several methods are used to conduct the study which include handing out questionnaires, observation at the study area and interview session. The respondents are randomly selected, and the findings are obtained. The findings are used and analyzed in order to detect the issue. The information obtained from the study are used to come up with some recommendations that will help to improve the number of visitors participation in recreational activity at Persiaran Sembilang Public Recreation Park. by improving the facilities, attraction, safety and variety of new elements. In the end of this research, the park should be a place where people gather to spend their time, fulfilling the park's provision main purpose.

ACKNOWLEDGEMENT

Bismillahorrahmanirrahim

Above all, in the Name of the Most Gracious Allah S.W.T , Most Merciful. All praise is given to the Almighty for giving me an opportunity to do this research. This study helps widen my perspective on parks design.

Firstly, I want to take the opportunity to thank to the staff in local authority which is Seberang Perai City Council that has contribute in this research study by providing me some useful information. Besides, the highest appreciation and gratitude expressed to my supervisor, Dr. Amelia Ahmad for giving me a lot of guidance, helping me in the learning process to complete the study and spending her time for discussion with me. Without her guidance, I would not be able to complete the research on the given time. I also want to thank Dr. Syazwani Ahmad as Planning Project Paper Coordinator, for her guidance, tolerance, supervised and reminded us the important dates during this semester.

Last but not least, I would like to express my very profound gratitude to my parents and family for providing me with physical and mental support in process of researching and writing this thesis. Finally, I am most thankful to all my friends for supporting and encouraging me in the process of completing this research. This accomplishment would not have been possible without them. All your kindness will be never forgotten. Thank you.
