ACKNOWLEDGEMENT

Alhamdulillah, praise to Allah for his Almighty and Graciousness, we were able to complete this thesis report by the dateline given. A special gratitude towards our final year project supervisor, Sir Rozi Bin Rifin, Madam Thahirah Bibi binti Muthu Thanghal Koya and Miss Aisyah who contributed in stimulating suggestions and encouragement, helped us to coordinate our assignment especially in writing this report. We are deeply indebted to them. Lastly, a thousand thanks to them for their kindest spending their time for us, giving explanation and providing solution for the problems that surfaced during this research. Without their kindness in lending hand to help us, this project could not have been completed as it is right now.

Next, I would like to take this opportunity to jot down a million of appreciation to all group members for giving full commitment dedicated in making this assignment successfully no matter how hard it is. Without their support this assignment are seems impossible to be completed.

We also acknowledge our parents for their support in no matter what we do. They have always loved us and support our choice.
