First and foremost, praise and thanks be to God, the Almighty, for showing His blessings throughout my research work successfully completing/completing this research.

I can't thank enough to my lecturer for her continued support, guidance, and enthusiasm: Madam Rahayu Hasanordin. I would like to express my deepest appreciation for the learning opportunities provided by my lecturers.

The completion of my project would not have been possible without the support of my classmates, Jasmin, Afrina, Nillam, Iffat, Sonadon and even my outside friends. To Fida who is my life partner: thank you for taking the time to always be with me when I am busy and always using your time to spend time with me. I really appreciate what you have done for me. Doing good will be rewarded well.

Finally, to my loving parents: a deep sense of gratitude. Your encouragement in difficult times is appreciated and obeyed. Because you have always been by my side and also because you have always supported me when I was in a fibrous state. Also, thank you also to my parents for always providing necessities for my comfort while making the project.
