**Thesis submitted in fulfillment of the requirements for Bachelor of
Information Technology (Hons.) Business Computing
Faculty of Computer and Mathematical Sciences**

SEPTEMBER 2019

ACKNOWLEDGEMENT

Alhamdulillah, praises and thanks to Allah because of His Almighty and His utmost blessings, I was able to finish this research within the time duration given, Firstly, my special thanks goes to my supervisor, Miss Nor Hasnul Azirah Binti Abdul Hamid who give endless guidance, support, time and contribution during development process, report writing and so forth. Other than that, no to be forgotten, my beloved lecturer for CSP600 and CSP650, Miss Nik Marsyahariani Bt Nik Daud for guidance given through these two semesters. And special thanks to lecturers and other who involved in this research.

Special appreciation also goes to my beloved parent and all my family members who always support and motivated me. Without them, I would not be able to complete this research successfully.

Last but not least, I would like to give my gratitude to all my dearest friend, who endless give their hand, effort, support, motivation and time to help me through this final year project progress.

ABSTRACT

Noha Beauty Cosmetic E-Commerce System(NBCeS) Based On Online Shopping Behaviour Theory is a prototype ordering system website where target user can use the system for order the cosmetic product via online. NBCeS is develop for increase the efficiency the current business process. Beside increase the efficiency, by implementing this system would give may benefits to the target user of the syste, which is customer, staff and admin. This system derived from the current business process problem faced by Noha Beauty Cosmetic. The development process for this system based on Online Shopping Behaviour Theory. The development process involved in this project is by adapting the Waterfall Model of SDLC. The methodology has sic sequential step that need to be follow to meet the requirement. The system has been evaluating by using the unit testing planning for the target user of the system. Hence, the functionality and usability of the system was tested in order to complete the process development.

TABLE OF CONTENT

ACKNOWLEDGEMENT	iv
ABSTRACT	v
TABLE OF CONTENT	vi
LIST OF FIGURES	viii
LIST OF TABLES	ix
LIST OF ABBREVIATIONS	x
CHAPTER 1: INTRODUCTION	
1.1 Background of Study	2
1.2 Current Business Process	3
1.3 Problem Statement	6
1.4 Project Objective	8
1.5 Project Scope	8
1.6 Project Significant	9
1.7 Project Framework	10
1.8 Gant Chart	11
1.9 Conclusion	13
CHAPTER 2: LITERATURE REVIEW	
2.1 Electronic Commerce(E-Commerce)	14
2.1.1 Type of E-Commerce	15
2.1.2 Advantage of E-Commerce	17
2.2 Cosmetic Industry	18
2.3 E-Commerce in The Cosmetic Industry	19
2.4 Online Shopping Behaviour Theory	20
2.4.1 Factors Which Influences Online Shopping Theory	22
2.5 System Development Model(SDLC)	23

2.5.1 Waterfall Model	24
2.6 Existing E-Commerce Website in The Cosmetic Industry	25
2.6.1 Comparison of Features of Existing E- Commerce Website	28
2.7 Implication of Literature Review	29
2.8 Conclusion	31

CHAPTER 3: METHODOLOGY

3.1 Research Methodology	32
3.2 Adaptive Waterfall Model	32
3.3 Phase 1: Planning	35
3.4 Phase 2 : Analysis Process	35
3.5 Phase 3 : Design Process	38
3.5.1 Context Diagram	39
3.5.2 Data Flow Diagram(DFD)	40
3.5.3 Entity Relationship Diagram (ERD)	41
3.5.4 Site Map	42
3.5.5 User Interface	42
3.6 Phase 4 : Development Process	44
3.7 Phase 5 : Testing	44
3.8 Phase 6 : Documentation	47
3.9 Conclusion	48

CHAPTER 4 : RESULT AND DISCUSSION

4.1 Introduction	49
4.2 Business Process Improvement	49
4.3 System Implementation & Deployment	51
4.3.1 NBCeS Homepage	51
4.3.2 Flow Process for Customer Page	52
4.3.3 Flow Process for The Staff	59
4.3.4 Flow Process for The Admin	65
4.4 Unit Testing	67
4.4.1 Unit Testing : Customer	67
