This project paper has not been submitted to any other academic institution or non-academic institution for any degree or qualification.

I, hereby, acknowledge that I have been supplied with the Academic Rules and Regulations for Undergraduate, Universiti Teknologi MARA, regulating the conduct of my study and research.

Name of Student : Zurin Noor Assleen binti Md Zakey

Student I.D. No. : 2018270788

Programme : AP111

Faculty : Faculty of Architecture, Planning & Surveying

Title : Provision Parking at Hospital Sultanah Aminah,
Johor Bahru, Johor.

Signature of Student : 

Date : 2 August 2021

ABSTRACT

Parking is considered an inseparable part of the road transport system, and the increasing number of vehicles has caused problems with parking in some areas around Johor. Sultanah Aminah Hospital (HSA) in Johor Bahru is also linked to this problem, as a result of the number of patients and also the number of staff in this hospital jumped almost every year, the number of parking spaces is still insufficient is one of the reasons that cause difficulties for the public to park their vehicles in the area. As a result, almost every day they would park their vehicles on the shoulder of the road outside the hospital grounds. This study was conducted to address the problems that arise in this area that has not been resolved for a long time, namely in the parking lot at Sultanah Aminah Hospital (HSA), Johor Bahru. In addition, this study will also issue some recommendations as well as findings from the analysis conducted through a survey questionnaire.

ACKNOWLEDGEMENT

Bismillahorrahmanirrahim

In the Name of Allah S.W.T the Most Gracious, the Most Merciful. All praise is given to the Almighty for giving me the opportunity to complete this research study successfully for six (6) months.

First of all, infinite appreciation and thanks expressed to my supervisor, Sir Norhazlan Haron has given me a lot of guidance, helped me in learning the process to complete this study and took the time to talk to me about things I did not know. Without his guidance, maybe I wouldn't have been able to complete the study in the allotted time. I would also like to thank Dr Syazwani Ahmad as the Project Planning Paper Coordinator, for for his guidance, tolerance, monitoring and reminding of important dates throughout this semester.

Finally, I would like to thank my family members who continue to support me in making this study. They gave a lot of suggestions in making this study that is being conducted. Finally, a big thank you to all my colleagues for their support and encouragement in completing this thesis. This achievement would not have been possible without them all. All your goodness will never be forgotten. Thank you.
