CHAPTER 1 INTRODUCTION	
1.1 Background of Study	1
1.2 Problem Statement	4
1.3 Limitation of study	5
1.4 Objectives	5
CHAPTER 2 LITERATURE REVIEW	
2.1 Souvenirs	6
2.2 Wood-based Industry	8
2.3 Wood Waste	11
2.4 Design	15
2.5 Adhesives	16
2.6 Finishing	18

CHAPTER 3 METHODOLOGY

3.1	Materials	20
3.2	Product Development Process	21
3.2.1	Research and Development Product Design	21
3.2.2	Product Design	22
3.2.2.1	Drawing Design	24
3.2.3	Survey	26
3.2.4	Test Marketing	27
3.3	Process Making	27
3.3.1	Cutting	29
3.3.2	Gluing	33
3.3.3	Sanding	33
3.3.4	Assembly	34
3.3.5	Finishing	35
3.3.6	Final Products	37
3.4	Setting Price	39
3.5	Questionnaire	40
3.6	Respondents	40
3.7	Experimental Design	41

CHAPTER 4 RESULTS AND DISCUSSION

4.1	Suitability of product as a souvenir item	43
4.2	Product from recycled wood waste material	44
4.3	Souvenir product can be commercialized	46
4.4	Souvenir product can be recommend to family and friends	47
4.5	Effect of souvenir product design	48
4.6	Effect of usability of souvenir product	49
4.7	Effect on price of souvenir product	50
4.8	Effect on quality of souvenir product	51
4.9	Effect on interested of souvenir designed by respondents	52
4.10	Statistically analysis on variables for different products	54

CHAPTER 5 CONCLUSION AND RECOMMENDATIONS

5.1	Conclusions	57
5.2	Recommendations	58

ABSTRACT

SOUVENIR PRODUCT MADE FROM WOOD WASTE MATERIAL

Wood wastes are unused materials that have not been go further processing in industry including packaging, furniture, wood composite and handicraft industry. Souvenir is a thing that is kept as a memory and commonly used by tourists because of traveling. Material from metal, glass, plastic and textile are currently used in our industry. Therefore, this study is conducted to overcome the wood waste management problems by produced three different souvenir products. It can help reduce wood wastes in industry and also protect our environment especially the sustainable natural resources. Materials from plywood, off-cuts, pallets and solid wood were used as main materials. About 100 questionnaires were distributed to respondents from UiTM Pahang, Wood and Lifestyle Fair exhibition at PWTC and other public places. Result had shown that all of wood wastes were utilized in souvenirs making and the most desired souvenir is Product C (Branch Wall Mirror) by respondents. There is no significant difference on the rating of souvenir products. Therefore, all the products are suitable as a souvenir item.
