## ACKNOWLEDGEMENT

In the name of Allah the Almighty, the most Beneficent and the most Merciful, I would like to express my deepest sense of gratitude to Him that I can manage to complete this practical training report completely. During preparing this practical training report, I would like to take this opportunity to extend my gratefulness and appreciation to the people who directly and indirectly involved during my practical training.

First of all, I would like to give my appreciation to my supervisor, Pn Siti Zubaidah binti Hashim for her guidance, assistance and full commitment that she has given to me, throughout my practical training.

Furthermore, last but not least that I would like to express my sincere thanks, deep from my heart to En. Mohd Azam Bin Azmi, assistant director at Unit Pembangunan JAIS, assistant engineer Puan Wan Azlin binti Wan Aria and other staff for giving their advices, support and taught me about industry and also help me in order to complete this report.

Thanks for being my inspiration.

## ABSTRACT

Practical training takes 4 months before complete study Diploma in Building Survey. During 4 months practical at Jabatan Agama Islam Selangor (JAIS), there are too many subjects that I can learn. Student can have more knowledge the aspects of organizational management, technology, design, property, building economic and financing, law, communications, project planning and management. This course also can justify the relationship of various professionals and their practices in the building industry as well as the integration and cross subject analysis and energy. This course as well, makes the practical student learn more about the green building concept, more detail on building services, element and material that used for the building that chose to be case study. Besides, we also can know the detail about the building construction, elements and specifications.
