ABSTRACT

The main objectives this practical training at Majlis Daerah Kuala Selangor (MDKS) is to study about the piling work for purpose hall. This case study consists of some works scopes which is construction. The other objectives of this case study is to get more experiences construction works on the field. Furthermore, can learn to built a building and manage the workers on site.

From this case study, it indicates that practical training gives may benefits to students and students themselves perceived that the practical training is necessary and important to them. Therefore the need to include the practical attachment about safety on the site building, need to considered.

AKNOWLEDGEMENT

I would like to express my gratitude and appreciation to all those who gave me the possibility to complete this report. A special thanks to my final year project coordinator, Sir Sr Mohd Nurfaizal and Madam Nurul Fadziha, whose help, stimulating suggestions and encouragement, helped me to coordinate my project especially in writing this report.

I would also like to acknowledge with much appreciation the crucial role of the staff of Majlis Daerah Kuala Selangor (MDKS) and especially for Department of Development and Maintenance.

Furthermore, this assignment cannot be completed without the effort and co-operation from our group members.

Last but not least, I would like to express my gratitude to my friends and respondents for the support and willingness to spend some time with me to fill in the questionnaires.
