ACKNOWLEDGEMENT

I would like to express my sincere gratitude to Universiti Teknologi Mara, Perak for letting me fulfill my studies requirement. I would like also to thank Timbunan Bakti Construction Sdn Bhd for giving me the opportunity to be apart of the company for my practical training, I am extremely grateful for the assistance and suggestion throughout my on-site practical training. Also, thank you to both of my parents and supervisor for the encouragement in every aspect to complete my training.

ABSTRACT

Timbunan Bakti Construction Sdn Bhd is a construction company with G7 Grade, the company's principal activities are concentrated in the fields of business and entrepreneurship in particular contracts. The current project is Phase 5B, which is a 18 units of twin double-storey semi-D house that is situated on Jade Hills, Mukim Kajang, Selangor.

This particular report is focus on one main element, which is non-suspended ground floor slab. Non-suspended ground floor slab is a slab that is sits directly on the ground.
