ACKNOWLEDGEMENT

With the deepest gratitude, I would like to thank every person who has come into my life and inspired, touched and illuminated me through their presence. First and foremost, I would like to thank my family for their unlimited support. I'm very much grateful to have them around me through ups and downs upon completing this report. Secondly, to Mohisma (M) Sdn. Bhd. for giving me once in a lifetime chance to work with them. Be working with the best team is very priceless and definitely helping me in the real working environment in the future. The 4 months experience can never be compared with any other company that I have worked. For generously sharing their wisdom, I pay homage to En. Ahmad Azwady, En. Ariff Zahirin and all staffs in Mohisma Sdn. Bhd. for their kindness to lead and showing the correct way of doing all the works related to this report and without hesitation giving information needed. My precious friends for the stressful yet exciting brainstorming and knowledge share sessions and also other who involved directly and indirectly making this report a success. From my bottom of my heart, I thank everyone who involved from the beginning until the end and hopefully this report can be a reference for those who needed.

Thank you very much.

ABSTRACT

Road should be viewed as an important national assets. Like any other assets, road must be regularly maintained to keep them serviceable. The road maintenance contains four chapters in which I try to explain my experience in the company.

In the opening in chapter 1, I give details the company background including its mission, vision, the project those run through the company consultation. In this chapter I put all record or history and futurity of my hosting company with its official address. So, it is give details of the company in term of reader can easily know and access the company.

The second chapter is the most hunted chapter which explains about literature review of road maintenance. This chapter explains about road, road maintenance, types of road defect, types of road maintenance, types of pavement and machinery used during road maintenance work.

In the chapter 3, I give details about my case study. This chapter contains introduction of case study and method of installation road maintenance. This chapter is the main chapter and I record on it the overall work I have been executing

The final and fourth chapter explains about the problem and recommendation on the site of road maintenance work at Jalan Sungai Division. Inside the site we get many things which are appropriate and inappropriate for work in road maintenance, thus I comment and give my recommendation in some conditions.

TABLE OF CONTENT
