## ACKNOWLEDEGEMENT

First and foremost, I would like to take this golden opportunity to express my heartfelt gratitude towards my industrial supervisor, Mr Mohamad Azrul Rashid as Architectural Coordinatoor, who was willing to take me in as a trainee under his supervision. Besides that, I would also like to express my deepest appreciation towards Resident Architect of Hospital Kuala Krai Project, Abu Khalil bin Mohamad. It is inder her guidance and supervision that I got to learn the most during the entire length of my training period. Not forgetting to give a handful of token of appreciation to Nur Syamimi Kamaruddin for helping me to complete my report about steel structure. Another important person that I cannot forget to accredit is my faculty supervisor, Ir Saffuan who took the effectiveness of the industrial training as well as to make sure that our experience in the working environment is worthwhile. Last but never the least, I would be grateful to extend my appreciation as well as hat tip to the entire team of Pembinaan SPK Sdn. Bhd. for their kindness and patience in supporting us throughout the entire period of my training and not losing sight of my parents who have given their own form of support.
