ACKNOWLEDGEMENT

In the name of ALLAH WBT, the Most Gracious, the Most Merciful, I like to raise my palm to show my faith and gratefulness towards HIS upon, divine patience strength and great determination in completing this task.

I would like to thanks to my beloved Building Survey Lecturer and my supervisor that guide me in completing my task with a lot of love, trust and respect, Sr. Nor Amin Mohd Radzuan, who always give teaching, support and help throughout the progress and the smoothness of my practical report. The cooperation is truly appreciated.

Special thanks to Rizal Ismara bin Ismail as civil engineering of Majlis Perbandaran Taiping and as my supervisor and all staff of the company. Thanks to all the hard worked and contribution on the sharing knowledge and smoothen my practical training at this company. My practical training will be not successful without the cooperation and guidance from the staff.

The practical training make me learn about working together as a team to complete a job and it is also a new experience in working environment before I truly enter working environment.

Last but not least, I would like to thanks my family and friends who has always support me in order for me to finish and completing this report.

ABSTRACT

This practical training report is about the site monitoring of installation paver and pebble wash at Dataran Warisan Taiping. I made this practical training report based on my all senses and experience for 4 months in the company. This practical training report are divided into several section, which are company background, literature view, case study, problem and recommendation and conclusion. Based on my experience and observation at site and office, the site monitoring of installation paver and pebble wash at Dataran Warisan Taiping is complicated but yet not too hard to make record and understood. In this report, it is contain a summary of the definition of paver and pebble wash, type of pebble wash and how to install paver and pebble wash. Besides, there are several problem arise when starting, while and after doing this monitoring that I can identified and take the best solution to solve it. I also include with several recommendations from my state of view that can solve the problems that arise. In conclusion, site monitoring gives impact on our profession, the benefit and on how its help our world of construction.

CHAPTER 1: INTRODUCTION	1
1.1 Company Background	2-3
1.2 Organization Chart For Engineering Department	4
1.3 Majlis Perbandaran Taiping Profile	5-8
1.4 Majlis Perbandaran Taiping Location	9-10
1.5 Engineering Department Profile	11
1.6 Scope Of Work	12
CHAPTER 2: LITERATURE VIEW	13
2.1 Paver	14
2.1.1 Type Of Paver	14-15
2.1.2 Installation Of Paver	16-19
2.2 Pebble Wash	20
2.2.1 Pebble Wash	20
2.2.2 Installation Of Pebble Wash	21-23
CHAPTER 3: CASE STUDY	24
3.1 Site Information	25
3.1.1 Site Background	25
3.1.2 Site Location	26
3.1.3 Adjacent Building	27
3.2 Installation Of Paver At Dataran Warisan	28
3.2.1 Flowchart	28
3.2.2 Table	29-30
3.2.3 Costing	31-33
3.3 Installation Of Pebble Wash At Dataran Warisan	34
3.2.1 Flowchart	34
3.2.2 Table	35-37
3.2.3 Costing	38
3.4 Variation Order	39
3.4.1 extension Of Time	39
CHAPTER 4: PROBLEM AND RECOMMENDATION	40
4.1 Introduction	41
4.1 Problem	41
4.1 Recommendation	41
CHAPTER 5: CONCLUSION	42
5.1 Conclusion	43
5.2 References	44
