Embrace I & Embrace II

Textile art is kind of magic

Textile art is kind of magic. Textile art is not just a repetition of design on fabrics but it can be form in various forms. I am inspired by my observations towards art, especially in fabric manipulations. For me I feel so inspired when I touch and feel the texture of the fabrics and materials. That's why I named my recent artwork ***embrace the series***, to appreciate the creativity that is awarded by Allah to His creation.

It's such a great pleasure when I explore other textile artists' creativity and make them as my reference. The physicality of working with fabrics, fibre and threads is an essential component in helping me to shape my ideas.
