Health and Personal Care Mobile Application

Nor Rasyidah Binti Mohd Rafie

**Thesis submitted in fulfillment of the requirements for Bachelor of
Science Computer (Hons.) Faculty of Computer and Mathematical
Science**

January 2022

ACKNOWLEDGEMENT

In performing my assignment, it's a successful one I had to take the help and guideline of some respected persons. First, I am grateful to Allah who gives me sound mind & sound health to accomplish my assignment. The completion of the report gives me much Pleasure. Besides, I would like to thank my gratitude Madam. Nurkhairizan Binti Khairudin giving me good guidelines and giving various suggestions as well as good guidance for this project.

On the other hand, big thank also I address to others lecturer such as Madam Nahdatul Akma Ahmad and Dr. Mohamed Imran that always teach and guide to understand the things that I should know while finish my report and in producing good project work. Finally, I would like to give my gratitude to my dearest family and friend who keeps on cheering me and give me the courage in completing this project.

ABSTRACT

Health and personal care products are important nowadays. Many people nowadays focus on beauty and personal hygiene to appear more confident. But there are some people or groups who have problems when it comes to finding these products that suit their skin type. Some of them do not know more detailed information about the product they want to buy. Therefore, this Health and Personal Care app is developed to make the user's life easier. This application facilitates users by providing information about products that suit their skin as well as tips for maintaining this health and personal care. This project is developed by adopting the Agile Methodology method which is Scrum. This mobile application is developed by using Android Studio, Firebase Console and Java language. The result of the test conducted shows that this project meets the functional requirement, and the user interface is user-friendly. Some limitations happen throughout the development of this project. One of them is limited information about the products. Future work recommended for this application improvement would be to add more information about the details of the products and this application will be available for iOS users.

ACKNOWLEDGEMENT	iii
ABSTRACT	iv
TABLE OF CONTENTS	v
LIST OF FIGURES	vi
LIST OF TABLES	vii
CHAPTER 1: INTRODUCTION	1
1.1 Introduction	1
1.2 Background of Study	2
1.3 Problem Statement	3
1.4 Project Question	4
1.5 Project Objective	4
1.6 Project Scope.....	5
1.7 Significant Study	5
1.8 Summary	6
CHAPTER 2: LITERATURE REVIEW	7
2.0 Introduction	7
2.1 Overview of Health and Personal Care	8
2.2 Overview Mobile Application.....	10
2.3 Specific Description of Mobile Application	11

2.4	Platform: Android	11
2.5	Technique in Mobile Application	12
2.5.1	Screen Scrapper.....	12
2.5.2	Online Web Scrapper	13
2.6	Common Features of Existing Application.....	14
2.6.1	Face-Skin Care: Pimples Care	14
2.6.2	Complete Beauty Guide	15
2.6.3	How to Care for Hair, Face, and Body.....	16
2.6.6	Comparison Between the Existing Systems.....	17
2.7	Highlight of The Chosen Techniques	17
2.8	Summary	18
CHAPTER 3: METHODOLOGY		19
3.0	Introduction	19
3.1	Project Operational Framework	19
3.2	Development Methodology.....	27
3.3	System Architecture	28
3.4	Hardware & Software Requirement.....	29
3.4.1	Hardware Requirement	30
3.4.2	Software Requirement.....	30
3.5	Summary	31
CHAPTER 4: PROJECT DESIGN AND IMPLEMENTATION		32
4.0	Introduction	32
4.1	Analysis Requirements of Project Design and Development	32
4.1.1	Data Requirement.....	32
