ACKNOWLEDGEMENT

IN THE NAME OF ALLAH, THE MOST GRACIOUS, THE MOST MERCIFUL

First of all, we are grateful and praise to Allah S.W.T for giving us the strength to successfully complete this Final Year Project entitled ‘Factors Influencing Students’ Underachievement in Mathematical Courses’.

We would like to express special gratefulness and sincere gratitude to our supervisor, Madam Zuraidah binti Jaafar, who had been guiding us patiently from the earliest starting point until the fulfillment of this research. The priceless help, useful comments and suggestion from her had smoothen the process throughout the research. Her intelligent guidance and advices had encouraged and helped us. Without her supervision, we may not able to complete the research report in the time given.

On the other hand, we also would love to express our gratitude to our coordinator of final year project, Dr Nurul Nisa’ Binti Khairol Azmi for crucial assist and vital information in completing this research.

ABSTRACT

Mathematics is common subject in higher education as its component may help students increase their critical thinking ability and focusing on problem solving. Recently, from 2018 onwards the failure rate of pre-calculus showed a decreasing pattern in UiTM Kuala Pilah. However, the mathematical performances of students in UiTM Kuala Pilah were still categorized in average level or underachievement. This research was conducted to investigate the relationship of the factors which are related to students' underachievement in mathematical courses and to identify the significant factors which contribute towards students' underachievement in mathematical course. The data was secondary data which consists of 211 respondents of students from campus UiTM Kuala Pilah, Negeri Sembilan Campus. Therefore, descriptive analysis shows these problems involves mostly are female students and rest of them are male students. Besides, Multiple Linear Regressions were carried out to determine the significant factors which contribute towards students' underachievement in mathematical course, MAT 133. It was discovered that the gender, assessment mark, and SPM result in subject's additional mathematics was significant variables indicates to this issue.

Table of Contents

ACKNOWLEDGEMENT.....	1
ABSTRACT.....	2
LIST OF TABLES.....	5
LIST OF FIGURES.....	6
CHAPTER 1.....	1
INTRODUCTION	1
1.1 BACKGROUND OF STUDY.....	1
1.2 PROBLEM STATEMENT.....	3
1.3 RESEARCH OBJECTIVE	3
1.4 RESEARCH QUESTION.....	4
1.5 RESEARCH HYPOTHESIS	4
1.6 SCOPE AND LIMITATION OF THE STUDY	4
1.7 SIGNIFICANCE OF THE STUDY	5
CHAPTER 2.....	6
LITERATURE REVIEW.....	6
2.1 INTRODUCTION.....	6
2.2 FACTOR THAT CONTRIBUTES TO UNDERACHIEVED MATHEMATICAL PERFORMANCE.....	6
2.2.1 Class Size.....	6
2.2.2 Gender	7
2.2.3 Mathematics Background	8
2.2.4 School Category	9
2.2.5 Assessment Mark.....	10
2.2.6 English Background	11
2.2.7 Underachieve mathematical performance	12
CHAPTER 3.....	13
METHODOLOGY	13

3.1	INTRODUCTION.....	13
3.2	RESEARCH DESIGN	13
3.3	THEORETICAL FRAMEWORK.....	14
3.4	DATA ANALYSIS.....	15
3.4.1	DESCRIPTIVE ANALYSIS	15
3.4.2	Multiple Linear Regressions.....	16
3.4.3	Assumptions:	17
3.5	SUMMARY OF DATA ANALYSIS.....	20
CHAPTER 4.....		21
RESULT AND ANALYSIS		21
4.1	INTRODUCTION.....	21
4.2	DESCRIPTIVE STATISTICS	21
4.5	MULTIPLE LINEAR REGRESSION.....	26
4.5.1	Indicator variables	26
4.5.2	Model Adequacy Checking	28
4.5.3	Model Evaluation	35
4.5.4	Final Model.....	37
CONCLUSION AND RECOMMENDATION		38
5.1	CONCLUSION	38
5.2	RECOMMENDATION	40
