We believe our products will make our customers buy it again and again because the popcorn sweetness is the uniqueness of our products that they cannot racist. Our target market is from children to adult because the popcorn is quite sweet to be eaten by senior citizen. In the future, we planned to create many other flavours so that our products are suitable for all range of ages. Besides that, we claimed Ribbit Popcorn as a strong company because we already have a complete business plan and competent employees which give us faith that we have capabilities to open as many branches as we can in the future.

Nowadays, people are more likely to shop from home rather than at stores. We are very concern towards these types of people and because of that we have developed our own official website to ease our customers to make a purchase from home. Ribbit Popcorn will be able to compete with other popular popcorn businesses out there because we are really committed in ensuring our customers always satisfied with our products and services.
