ACKNOWLEDGEMENTS

In the name of Allah, The Most Beneficent and The Most Merciful, and with the blessing of his messenger, The Holy Prophet Muhammad S.A.W, I have completed the report for the subject Practical Training (BSR 360) . Here, I would like firstly express my endless appreciation to my parents for without them, I would not have gone this far in completing this study. In addition, my sincere thanks to my supervisor, Sr. Mohd Nurfaizal for guiding me in completing this report, and not forgetting all of the lecturers in Department of Building Surveyor. The endless guides that have been provided would be much appreciated.

A million thanks to Mr. Muhammad Akmal bin Halim and Mr. Muhammad Syarifuddin bin Amiruddin from ZYQ Engineering Sdn Bhd and not to forget, all of my colleagues and friends that have helped me along the way and sacrifice their time for me to share and spare important information throughout the completion of this report.

Besides my advisors, I would also want to thank graciously to all the parties involved directly or indirectly in contributing their expertise, support and guidance that had helped me in completing this report and achieve all of the objectives and at the same time, accomplishes more about this topic in the very detail.

Realizing that this study is meaningless, without the acknowledgement of The One who made it all possible, once again thanks are unto The One and Only God, Allah S.W.T, for a blessed family, friends, colleagues, and giving me the peace of mind, body, and soul throughout the completion of this study.

Thank You.

ABSTRACT

The company which are ZYQ Engineering Sdn. Bhd. are the company of malay muslim which are targeting to build a dream house for the low income of Malaysians which are the price of the house are as low as RM60,000.00. the design of the house are very simple and it is comfortable. Other than that, the client of ZYQ Engineering Sdn. Bhd. can choose the house designs and the price are affordable and cheaper than the market price. On the other hand, what makes they have the low price of building a house because the company have their own IBS factory which have the certification from CIDB Malaysia and SSM.
