Dissertation Title : Employee Perception on The Spatial Qualities of Open
Plan Design in Interior Designer's Office

Signature of Student : 

Date : August 2021

ABSTRACT

The aim of this research is to identify the element of spatial qualities in open plan design for interior designer office that are vital for office plan design. The main objectives of this study are to identify user perception towards spatial qualities of open plan design in interior design office and to investigate the element in spatial qualities for open plan design in interior design office. This research was carried out at interior design office in Selangor and the respondent are the employee of the office. The research used a questionnaire to gain data about employee perception and feedback about spatial qualities in their office. A further study, enable researcher to identify employee perception about the spatial qualities in an open plan design office.

ACKNOWLEDGEMENT

First and foremost, I would like to convey my gratitude to Allah SWT, for giving me this opportunity to carry on with my degree studies and prolongation with this dissertation. Furthermore, I also would like to gratitude my thankful to my supervisor Puan Syazwani Abdul Kadir and my co – supervisor Puan Nurul Nabilah Aris, dissertation coordinator Dr. Arniatul Aiza Mustapha for their guidance and advice from the beginning of this research until end of this research.

Bear in my mind to gratitude my most appreciation towards my parents and family for their endless loving, supportive and motivate me along with my journey studies in degree level. Last but not least, I also want to thank to my fellow friends and studio mates for their support and helping me during this study, also the memories and the endless friendship. In addition, I would like to thank to those who indirectly involved in this research, you kindness very meaningful to me. Sincerely, thank you.
