## **ACKNOWLEDGEMENT**

In the name of Allah, the most Gracious, the most Compassionate.

First of all, my thanks and gratitude should be dedicated to Allah S.W.T as He has given me the opportunity to complete this report just in time as without his consent I may not be able to do so. During the whole 4 months of practical training, I have learnt a lot and the main objective of this practical training had been achieved which was to expose students with the working environment in construction business.

Secondly, I would like to thank PPJ Home Builders for they have given me the ultimate experience of working environment in a construction firm which this experience will give an early insight of my future profession. Other than the experience, PPJ Home Builders' staffs also have given me all the information and guidance which was essential in completing this report.

Not to be forgotten, my thanks are also for Encik Badri bin Ali whom acted as my Industrial Training Supervisor during my training has given me the perfect guidance, advices and opinions on any enquiries and doubt given by me. Time and spaces which has been spent while giving me helps and guidance are guaranteed to be very much appreciated.

Lastly I would like to thank my parents and fellow friends which have helped directly and indirectly during practical training in completing this report. They have given me genuine moral and material support along the way in completing this report. Again, thank you to all parties that have contributed and helped in completing this report.

## **ABSTRACT**

Floor finishes are one of the main components in a building. Floor finishes also provides protection and extend the life of the floor while providing an attractive appearance and long lasting floor. Therefore, this report will discuss about the many types of floor finishes and criteria in selecting the most suitable floor finishes. Apart from that, this report will also elaborate about how the construction of floor finishes at one of the projects. This report also will concentrate about how important it is a floor finishes to a house as it provides comfortable environment for its occupants. Then, based on all the details, this report will conclude about recommendations of what type of floor finishes that is the most suitable and how to increase the quality and appearances of a floor finishes.
